Vadodara, Gujarat 390007

PROFESSIONAL SUMMARY

Full Stack Web Developer with 2+ years of experience building scalable, production-grade applications using React, Next.js, Node.js, Express.js, NestJS, SQL, and MongoDB. Experienced in delivering end-to-end systems including Learning Management Systems with OAuth2 authentication, ERP integrations, microservices architectures, and OCR-powered document processing pipelines. Contributed to multiple early-stage startups — including Quickoline, where remote cybercafe infrastructure was enabled through microservices and OCR workflows — and an EdTech LMS platform featuring OAuth-based SSO and Live Code Editor Supporting Multiple Users in realtime. Skilled in managing production deployments on Windows Server environments using PM2 and IIS, with a track record of migrating legacy systems, optimizing backend performance, and shipping full-stack products across ESG, fintech, and education domains.

PROFESSIONAL EXPERIENCE

Encoraa ESG, Vadodara, Gujarat

June 2024 – Present

Full Stack Developer

- Delivered 4+ production-grade projects including 2 complete end-to-end builds using React, Next.js, Node.js, Express.js, NestJS, and SQL with scalable architecture
- Built Tree Metric & Tracking platform (Aranyasetu) using Leaflet.js maps, geotagging, and reward systems engaging 50+ users and tracking 3000+ trees
- Developed educational ERP using React and React Native integrating secure payment gateways and legacy backend systems
- Implemented Tally ERP XML integrations and high-volume financial data export systems, improving accounting accuracy and reducing manual reconciliation effort.
- Developed enterprise ERP modules including Ledger View, Trial Balance, P&L, Balance Sheet, Payables/Receivables, MIS reports, vehicle tracking, inventory management, and end-to-end billing systems.
- Migrated Django backend to Node.js improving maintainability and performance
- Built tax filing system for US client using React and NestJS with cron-based scheduled emails and automated workflow reminders.

Whizoid Studio, Remote

Dec 2023 – May 2024

Full Stack Developer Intern

- Built RESTful APIs using Node.js and Express.js with JWT-based authentication and authorization
- Designed optimized MongoDB schemas with indexed queries improving retrieval speed
- Developed Instagram automation Chrome extensions increasing marketing efficiency by 60%
- Integrated CRM (GoHighLevel) and built no-code websites reducing delivery timelines

EDUCATION

B.Tech in Computer Science — Shri Vaishnav Vidhyapeeth Vishwavidyalaya

May 2024

Class XII — Aditya Birla Senior Secondary School (Nagda)

April 2020

TECHNICAL SKILLS

Frontend: React.js, Next.js, TailwindCSS, Bootstrap, Redux, Context API, React Hook Form, Axios, Recharts, Chart.js

Backend: Node.js, Express.js, NestJS, RESTful API Design, Microservices Architecture, Middleware Development, Cron Jobs

Databases: PostgreSQL, MySQL, MongoDB, Mongoose ODM, Sequelize ORM, Schema Design, Indexing & Query Optimization

Authentication & Security: JWT, OAuth2 / OpenID Connect (SSO), Role-Based Access Control (RBAC), Session Management, bcrypt, HTTPS/SSL

Integrations & APIs: Tally ERP XML, Payment Gateways, GoHighLevel CRM, Leaflet.js (Geospatial / Maps), OCR (Optical Character Recognition), Chrome Extensions (Manifest V3)

DevOps & Deployment: Git, GitHub, PM2 (Process Management), IIS (Reverse Proxy), Windows Server, CI/CD, Environment Configuration

Architecture & Practices: Microservices, MVC Pattern, Modular Codebase Design, Backend Migration (Django → Node.js), API Versioning, Code Review
